

ArcelorMittal
Dofasco

ArcelorMittal

Nov. 30, 2007

Dear Supplier,

I am pleased to announce that, effective today, Dofasco Inc. has changed its name to ArcelorMittal Dofasco Inc. I wanted to take this opportunity to share this important milestone with you, and to introduce you to ArcelorMittal.

ArcelorMittal is the world's number one steel company with operations in more than 60 countries worldwide. The company has set the ambitious goal of transforming the steel industry from a collection of small to medium-sized steelmakers to a global industry capable of sustaining its success and profitability through the variable cycles that have marked the steel business for so many years.

Our relationship with ArcelorMittal will benefit Dofasco significantly. Being part of global company puts us in a much better position to compete in a global market. Already we have seen investments in our Hamilton facilities that directly impact our local economy, including a \$60 million Pulverized Coal Injection facility and a \$13 million investment in our cold rolling operations. Early investments like these show the confidence ArcelorMittal has in Dofasco, but more importantly it shows the potential for even greater investment and growth in the years ahead.

Our suppliers, customers, employees and community expect a lot from us. Over the years the Dofasco name has come to symbolize quality, leadership and sustainability, and we are very proud to have become part of a company that shares our long-held values.

On behalf of everyone at ArcelorMittal Dofasco, we look forward to our continued relationship with you.

Sincerely,

Juergen G. Schachler
President and CEO
